Documentación

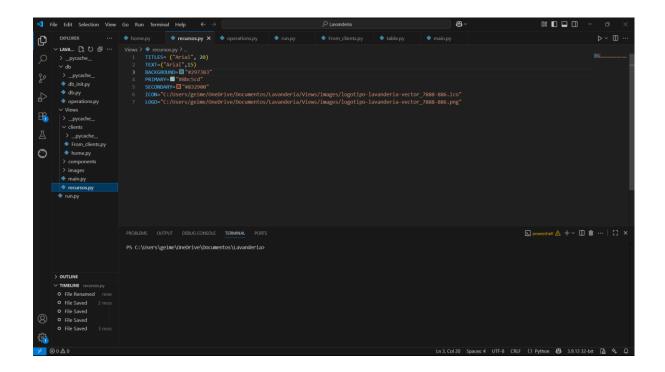

Creado por: Antonio de Jesús Herrada Zapata

Descripcion:

- Cambios en un archivo
- Commit
- Subir cambios
- Rama secundaria
- Merge con rama principal
- Documentación

El cambio se hará en el documento recursos.py en el cual se agregarán más colores

Evidencias:

```
geime@Antonio MINGW64 ~/OneDrive/Documentos/Lavanderia (master)
• $ git checkout -b pruebas1
   Switched to a new branch 'pruebas1'
   geime@Antonio MINGW64 ~/OneDrive/Documentos/Lavanderia (pruebas1)

                             --[no-]ignore-other-worktrees
do not check if another worktree is using this branch
checkout our version for unwerged files
-3, --cheirs checkout their version for unwerged files
-p, --(no-]patch select hunks interactively
--[no-]ignore-skip-worktree-bits
do not limit pathspecs to sparse entries only
--[no-]pathspec-from-file cfile>
--[no-]pathspec-from-file-nul
with --pathspec-from-file, pathspec elements are separated with NML character
                                                                                                                                                                          Ln 6, Col 14 Spaces: 4 UTF-8 CRLF {} Python 👸 3.9.1332-bit 🚡 🍫 🗘
  geime@Antonio MINGW64 ~/OneDrive/Documentos/Lavanderia (pruebas1)
$ git checkout master
  Switched to branch 'master'
 geime@Antonio MINGW64 ~/OneDrive/Documentos/Lavanderia (master)
 $ git merge pruebas 1
 merge: pruebas - not something we can merge
 geime@Antonio MINGW64 ~/OneDrive/Documentos/Lavanderia (master)
$ git merge pruebas1
